

What is RSS?

RSS, short for **Really Simple Syndication** or **Rich Site Summary**, allows you to keep up to to date with Ministry of Economic Development news from this website.

You will need a news reader

You will need to obtain a news reader, which allows you to subscribe to the various RSS feeds you want and display them.

A number of news readers are available, some of which work in your browser and others which must be downloaded and installed on your machine. Check that the one you choose is compatible with your operating system. To find out which News Readers are available we suggest you perform a Google search for this information.

Note | The New Zealand Companies Office is not responsible for the content of external internet sites.

How to receive news updates from this website

To receive news updates from this website, click on the **What's new RSS** icon on the homepage of this website, then drag or cut and paste the URL of the RSS feed into your news reader. Your news reader will periodically fetch the latest news from this site.

Public notices RSS feeds

We also have several RSS feeds you can subscribe to and keep up to date with our latest public notices.
