

## Personalised dashboard

Your dashboard is the customisable workspace that allows you to keep track of any unfinished business and watch companies you have an interest in.

When you logon to the Companies Office website you are automatically taken to your dashboard. The dashboard will work as a central place for all your business.

From your Dashboard you can use one of the **Do It Now** options to use an online service. The Dashboard is also where you go to access the **My Watchlist** and **My Unfinished Business** tools.

## Read more about...

### [My Watchlist](#)

The My Watchlist feature allows you monitor activity on companies of interest.

### [My Unfinished Business](#)

The 'My Unfinished Business' tool is a great way of managing outstanding tasks and incomplete applications.
