

PPSR search

When you search for a company on the Companies Register, you also have the option of searching the Personal Property Securities Register (PPSR).

Begin by searching for the company of your choice, then from the company details screen click on the **PPSR Search** tab to initiate a PPSR search for that company.

Note that -

- This search will use only the company's incorporation number as the search criteria.
- When searching for a New Zealand company we recommend conducting two separate searches. In addition to completing this search (which is by incorporation number only) you should also complete a search using the company's name at www.ppsr.govt.nz.

[Learn more about searching the PPSR on the PPSR website](#)

- A PPSR search costs NZ\$1.02 and you will be charged irrespective of whether any results are returned.
- You (or your search agent) will be required to confirm on screen that your search is for one of the purposes set out in the Personal Property Securities Act 1999.
