

Leaving your organisation

Updating financial service provider (FSP) details when leaving an organisation

When leaving an organisation, the registered FSP is responsible for updating their details with the Registrar to maintain their registration.

FSP's who wish to remain registered should update their address details online to remove any association with the organisation.

Note | If an employee has left an organisation, the organisation no longer has authority to make changes (unless otherwise specified by the FSP) and they should not deregister the FSP.
