GETS is a free service managed on behalf of the New Zealand Government by the Ministry. GETS is designed to promote open, fair competition in the New Zealand Government market and meet international trade agreement commitments to provide information about New Zealand Government business opportunities.

Only Government agencies can advertise contracting opportunities on GETS. Agencies that comprise the State sector, regional councils and territorial authorities, and agencies associated with a Ministerial portfolio are eligible to publish information on GETS.

New Zealand Public Service Departments, New Zealand Defence Force and New Zealand Police are required (see the [Mandatory Rules for procurement by Departments](#)) to use GETS for the publication of all opportunities above minimum thresholds and related information.

GETS is an information resource only. GETS staff have no involvement in running or evaluating tenders/offers.

We're in the process of revamping the GETS system. Current plans are to launch its replacement during 2012.
