

We're reducing the Work levy rate from 1 April 2017

This will see the average levy rate paid by employers and self-employed go down by 10% for the 2017-2019 levy period.

If you'd like more information on the new Work levy rates, visit www.acc.co.nz and if you'd like some background on our Work levy and our consultation visit www.shapeyouracc.co.nz/work-levy.

Don't worry, you'll still get the same benefits of workplace cover

We'll support you when your employees are injured and help them return to work. We'll provide them with weekly compensation, cover the cost of physiotherapy, prescriptions and surgery.

We're continuing to invest your levies into injury prevention programmes to minimise the risk of injuries before they happen.

For more information, visit www.acc.co.nz

Our new approach to workplace incentives

We're developing a new approach to how we help New Zealand businesses create healthy and safe workplaces and reward them through their levies.

We're enhancing our existing Experience Rating (ER) programme as it has many of the right attributes to reward good performance by businesses. An enhanced version could play a more effective part in supporting our wider drive to improve workplace health and safety.
