

Help us shape the future: Levy consultation 2018

In September 2018, we'll be proposing a number of changes to the way we do things at ACC.

This includes changes to the levies we charge businesses to cover injuries that happen at work and the incentives that we put in place to encourage businesses like yours to be healthier and safer places to work.

These changes will directly impact the finances of your business and are designed to influence the way you approach the health and safety of your workforce.

Because of this, it's vital that you get involved in the process and let us know if what we are proposing is right for you and your business.

How to get involved?

We'll be publishing these proposals during a four week consultation, which will launch in September. The outcome will shape the incentives we put in place to improve workplace safety, and determine how your compensation scheme is funded over the next two financial years (2019/20 and 2020/21).

Our key focus will be on work levy rates and the incentives we offer to encourage reductions in workplace injuries; however, we will also be looking at a number of related areas, such as the risk classifications we give to businesses.

We'll be refreshing our website, ShapeYourACC.co.nz, to help explain the thinking behind our proposals and to capture your feedback.

We are open to new ideas and approaches

You might think there are better ways of improving workplace safety than what we are proposing. After all, you are the experts.

That is why we need you to partner with us to develop the best ways of minimising the incidence and impact of injuries in the workplace.

Please visit ShapeYourACC.co.nz in September to get involved.
